WATER SOLUBLE HEMP

IT'S WHAT WE DO

INCREASED BIOAVAILABILITY

PHARMACEUTICAL GRADE

WATER SOLUBLE HEMP

At Sunshine, we take great pride in what we do, and our Nanoliposomal water soluble Hemp & CBD formula is no different. Using only 5 sustainably sourced ingredients, our pharmaceutical-grade formula is free of toxins - so you get a healthier, happier water soluble CBD product each and every time!

Blends perfectly with all your favorite...

FOOD & BEVERAGES!

VEGAN

NON TOXIC

NON GMO

GLUTEN FREE

SYNTHETIC FREE

ETHICALLY SOURCED

KOSHER INGREDIENTS

SUSTAINABLY GROWN HEMP

SUGAR FREE

ANTI-INFLAMMATORY

Sunshine's unique technology helps CBD bind to inflammatory markers in your body - which stops inflammation and other bad things dead in their tracks - so you can go on living your best life.

ANTIOXIDANT

Sunshine's Nanoliposomal formula helps CBD bind to toxins and other free radicals in your cells, which will make your cells smile because they won't have to spend time and energy repairing damaged themselves.

PAIN RELIEVER

Sunshine's formulations help ensure that CBD will connect to the receptors in your Peripheral Nervous System, which means our CBD can help stop pain signals being sent to the TRPV receptors in your brain.

PRODUCTS & SERVICES

We are built to help you get the best water soluble hemp products possible. With advanced technology, we provide a variety of ways to help you get the highest quality extracts in water soluble form.

HOW DO YOU WANT YOUR WATER SOLUBLE?

WATER SOLUBLE PRODUCT

We offer a pre-made water soluble CBD - and other hemp extracts. From Hemp Seed to Final Solution, we trace every step of the process to create a one stop solution to get you going on your journey.

WATER SOLUBLE SERVICE

If you already have CBD isolate, Full-Spectrum or Distillate, but want to make it water soluble - then you're in luck. You can send us your extracts, and we can work our magic to give you high-quality water soluble extracts.

WATER SOLUBLE FORMULA

If you have extracts and proper sonication equipment, but don't have a good formula to make it water soluble, fear not. Our Solubilizing Formulas can be the final piece you need to start producing your own water soluble products.

WE CAN SOLUBILIZE

THC-FREE DISTILLATE

CBD ISOLATE

GUARANTEES

At Sunshine, we truly believe we are only as good as our products, that's why we go to great lengths to be as transparent as possible. If you're one of our customers, you'll always receive proper documentation. This includes a MFG Certification, Test Results for CBD content, as well as proper Storage and Handling Information.

MANUFACTURING CERTIFICATION

Our MFG Cert is a guide into what you are getting when you get our water soluble products.

This includes matching batch numbers for full transparency, as well as a read out of ingredients, so you know exactly what you're putting into your products.

TEST RESULTS

We provide 3rd party testing on every order, so you can see just how much CBD is in each order.

This will help our customers know that they are getting exactly what they are asked for in regards to the amount of CBD in each product. We also look to make sure there aren't any unwanted contaminants.

STORAGE & HANDLING

There is a lot of information necessary to ensure you're caring for your purchase properly. That's why we created a Storage and Handling guide.

In it you'll find suggestions on handling, temperature storage and other useful tidbits you'd want to know before the product is shipped.

FAQ

Can I Mix Sunshine Water Soluble CBD With Any Drink?

Yes, our water soluble can be added to any beverage, blending perfectly for maximum effect. Just pick your favorite liquid, and give it a shot!

Why does Sunshine Water Soluble CBD last longer?

Our Water Soluble formulation places CBD in something called a 'liposome'. The liposome protects CBD from degrading within the body. At the cellular level, CBD serves as an antioxidant. By binding to 'free radical' electrons and Reactive Oxygen Species that cause damage in your body, your cells are protected from harm - so your body can operate more efficiently, and not waste energy repairing itself.

What is Cellular Targeting, and what does it mean?

Because we use nanoliposomes, our Water Soluble CBD diffuses through cell membranes, allowing CBD to enter into the cells in your body. At the cellular level, CBD serves as an antioxidant. By binding to 'free radical' electrons and Reactive Oxygen Species that cause damage in your body, your cells are protected from harm - so your body can operate more efficiently, and not waste energy repairing itself.

Is your product really Water Soluble?

Because our formula is a liposome, it is 100% Water Soluble. Companies that use a Nano-emulsion - by definition - cannot be Water Soluble. They are Water Compatible, which means they are loose molecules that are thermodynamically unstable. Sunshine's Water Soluble CBD is the only Liposomal formula on the market, making it the only truly Water Soluble product on the market right now.

What makes your formula Pharmaceutical Grade?

Sunshine's team of scientists have years of experience in the pharmaceutical industry. Because of that, we've gone to great lengths to make sure our product is made to the highest standards. We use pharmaceutical grade ingredients on pharmaceutical grade equipment, with technology and practices used in the pharmaceutical industry.
